

Dear Summit Point members,

We are pleased to announce that we are launching a new registration service at <http://summitpoint-raceway.com/>. Track Rabbit is an innovative marketing and registration engine for track day events that enables users to sign up for events on Summit Point's site directly, and comes with new features that are not found on any other platform of its kind.

We are one of the first of many tracks, clubs, and schools to move to this platform because it will be beneficial in the long run to you—our members—and our club. In order to ensure our members have the best experience with this new system, the Track Rabbit team is working with us directly to update and customize our registration engine so that it meets all of our specific needs. In addition, we have an implementation team available who will help us through the initial transition to Track Rabbit.

Let's get started—please review the guide below for a better user experience when using the new platform:

Step 1: Create a Track Rabbit Account.

For Members & Guests of Summit Point:

1. Click [here](#) to register.
2. Once all of the required fields are filled in, click submit
3. You will receive a confirmation email to verify your email address. Click the link in the email to finalize your account registration

Step 2: "Verify Your Club Membership" of Summit Point's Driver's Club on Track Rabbit.

For Summit Point Members:

1. When you log in to Track Rabbit for the first time, you will be asked whether you are a member of your organization. Click 'Yes,' and a notification will be sent to an administrator for approval.
2. You can also verify membership [here](#) by clicking VERIFY YOUR CLUB MEMBERSHIP at the bottom of the page. Once you have received a confirmation email, you can begin registering for events at the member rate.

For Summit Point Guests, you can begin to register for events after creating an account by visiting <https://summitpoint.trackrabbit.com/>

If you experience an issue throughout the sign up or registration process, please email Track Rabbit at support@trackrabbit.com to notify the support team who will work with you to get you back on track.

Although this platform is different from what we have used in the past, with a little time, our members and Summit Point as a whole will begin to benefit together from its use and this partnership. We encourage your feedback as the service continues to develop and we work to bring you the best registration engine for track day events.

Sincerely,

Chris and the Track Rabbit Team
