

Summit Point Motorsports Park

Announces 2nd Quarter Spectator Events

(Summit Point, WV) From off-road to road course and two wheels to four April through June promises to be an exciting time to be track side at Summit Point Motorsports Park.

“After months of frustration it is so exciting to welcome our motorsports fans back to the park!”. Edwin Pardue, Director of Motorsports Operations recently shared those thoughts in a phone conference with several event organizers.

When spectators return to the facility they will find the same natural beauty and country setting that they have come to love over the past 50+ years. They will find a few new things as well. A new Turn 3 viewing area provides a welcomed vantage point to see the action through turns one, two, & three. Reserved ‘track side’ parking spots (Summit Point Circuit Events) will allow fans to secure their favorite view prior to the event. As 2021 rolls on additional concession opportunities and fan amenities will be announced.

Please refer to the chart below for basic admission information and the corresponding maps. Check our website for additional updates and COVID Guidelines: summitpoint-raceway.com or follow us on social media.
